

River Sun Koshi rafting - 8 Days

Raft in the river of gold! Yes, rafting in longest river of Nepal Sunkoshi River resembles the same thing. Sunkoshi river rafting is also one of the top ten river expeditions in the planet. The put in point of this amazing 8 daylong rafting trip is Dolalghat and take out point is at Chatara. River Sun Koshi rafting is graded as class 3+ and is actually a beautiful river expedition offering the scenic views of waterfalls, small villages, temples, Mahabharat range and sand beaches for camping. If you are looking for the long river trip in Nepal then Sunkoshi river rafting is the must do activity for you.

ITINERARY IN DETAIL

Day 1: We will see you in front of our office and drive to Dolalghat starting point of Sun Koshi rafting

Upon arrival at sun Kosi, we unload gears, lunch will be served and your expedition leader will brief you about a full safety while in rafting. The big rapid you will encounter on that day is of class 4+ rapid "Rotten Cave". We will choose our beach campsite and dinner will be served with self fun filled evening.

Day 2: After the breakfast pack up the gears and start rolling down

Today you will encounter a big class 4+ rapid "Meat grinder". It is fairly straight run down the center avoiding holes left and right. A few meters below here the Tama Kosi River joins the Sun Kosi on the left. We camp here and enjoy the night.

Day 3: After some times paddling join a Likhu Khola, class 3+ rapid

Pre-Anxiety soon followed by a long class 4 rapid High Anxiety with a large hole on the left halfway down and a series of holes at the bottom. Float a while and then camp.

Day 4: This day starts with several class 3+ rapids

then a quick stop for refreshment with local Bazar. Then prepare for a big and interesting one Harkapur 2 and 3 which is the hardest rapid on the trip, should be carefully scouted. Camp

Day 5: Some km below Harkapur, Dudh Kosi River joins the Sun Kosi from the left

And today will be an easy paddling. Camp

Day 6: Today is another adventurous day

with an encounter most of the grade 4+ rapids – you are straight into good exciting rapid "Rhino Rock" which is a grade 4+ followed by "Jungle Corridor" a kilometer of continuous white water. Waterfalls cascade on both sides of the river. One waterfall makes a great spot for a team shower. Camp

Day 7: Today you will have some little excitement with wave

and if you are interested you can try kayaking where our experts will teach you the basic skills needed to maneuver the boats or learn the Eskimo roll. Camp

Day 8: The last stretch of river which brings you to the last class 4+ Big Dipper is a series of huge standing waves

A few kilometer later Big Arun and Tamur rivers join together and form the Sapta Kosi. Then you float along on the powerful current, the hills dramatically give way to totally flat. This is the end of a classic and memorable river journey. We will be at our last pint at around 2 pm and have a lunch and pack the gear and then Drive to Kathmnadu Over night in the hotel.
