

Upper Dolpo Trek - 28 Days

"Feel the eccentric joy of trekking to the Upper Dolpo region of Nepal by joining this trip with us."

Upper Dolpo Trek is an adventurous trekking destination in remote areas of mid-western Nepal. Only after 1989, the Dolpo district was opened to outside trekkers. It is the largest district of Nepal in terms of the area comprising the geographical topography quite similar to the Tibetan region. Snow leopards, blue sheep, and mules are the faunas found in this region. Shey-Phoksundo Lake lies in this region which is the deepest lake at the highest altitude of the world.

Most of the hills are almost bare or with little vegetation. This cultural and remote area trekking offers dynamic weather conditions with steep lowlands, and high lands make trekking in this region strenuous and enduring as it is also the least developed part of Nepal. Regardless, the natural beauty of scenic landscapes, Himalayas, and cultural importance makes this Upper Dolpo region truly adventurous and fascinating.

We start our Upper Dolpo adventurous expedition after taking the domestic flight to Nepalgunj and another short flight to Juphal at an altitude of 2475m. Then we head towards Chhepka and trek towards Palam, passing the beautiful forest and small Reechi village. The very next day, after steep trekking for about 4 hours, we can view the highest waterfall of Nepal, known as Phoksundo waterfall or the sunlight waterfall.

People following the Tibetan Buddhism and Bonpo region are the inhabitants of this small Ringmo village. We walk through the trails of the Oscar-nominated CARAVAN movie to arrive at salla ghari, from where the spectacular view of Kanjiwora Himal, Annapurna, and Dhaulagiri range is seen.

After going through strenuous uphill and downhill, we reach Shey Gumpa, a very small village with a couple of houses and monasteries. This Shey Gumpa was built in the 11th century beneath the crystal peak, so it holds cultural importance to local inhabitants. Passing similar adventurous trekking days, we trek towards Juphal and fly back to Nepalgunj and then Kathmandu.

Trekking in Upper Dolpo is long, very strenuous, and requires a high level of physical fitness with previous trekking experience. So, all the adventure lovers and passionate trekkers with a positive attitude with an ability to walk approximately 7-8 hours a day can grab this Upper Dolpo Trek as an ultimate adventure in Nepal.
